

Your Partner For Better Care

Jamjoom Medical Industries Co. Ltd.

Jamjoom Medical Industries Co. Ltd.

Our vision

- Our vision for establishing a family business was driven by our sense of national duty to create a world class locally based medical consumables company.
- We have pioneered the manufacture and distribution of medical consumable products in Saudi Arabia and the Gulf countries. This was achieved by our commitment to deliver the highest quality products to both our customers and community.
- Jamjoom is now positioned to expand its commercial presence internationally to the MENA region and beyond as we begin to expand our manufacturing capacity and capability, while continuing to invest in our people, systems and processes.

Mohammad Kamal Jamjoom
Chairman

Saleh M. Kamal Jamjoom
Vice President

Company Brief

- Jamjoom Medical Industry (JMI) was founded in 1977 by Sheikh Kamal M. Jamjoom to manufacture and distribute disposable medical products. From its humble beginnings, JMI has grown to operating a state of the art production facility specializing in cleanroom (FDA Class 100,000 and 10,000) with the largest installed capacity in Saudi Arabia and is one of the largest manufacturers of medical consumable and disposable products in the Kingdom.
- JMI presently manufactures a full spectrum of disposable medical products, exceeding 300 stock keeping units and has a growing client base primarily in Saudi and GCC. With our new 3-year strategy, we are planning aggressive geographical coverage further into GCC, Middle East, Western Europe and North American markets while also expanding our range of products across to other segments.
- JMI takes pride in being a pioneer in the medical industry in Saudi Arabia and has worked hard to stay ahead of the curve. We recognized the need and launching an employee diversity program 11 years back and today have 200+ females out of a total team of around 500. However, since 2012, JMI has been busy with major change across the company to further improve our people and process capability to make it comparable to the leading multinational companies. We have started by engaging the right level of talent, deliberated and formulated a new set of 5 values, developed and deployed a 3 year goal-setting and strategy deployment (using the OGSM tool), restructured the organization and graded the roles using Hay Group methodology, conducted and implemented feedback from the first salary survey using Hay Group, initiated the first organizational health and engagement survey and rolled out a leadership and coaching assessment for senior leaders. We are enabling management with the best IT tools and have signed up with Oracle to implement a full ERP solution, including advanced supply chain, during 2014. This is expected bring about a different level of automation to improve management of our processes and resources thereby further enhancing our reliability, cost and availability to our customers.
- From an external perspective, our strength is in our ability to understand the needs of the market and partners and convert them into actionable solutions. Internally, our strength is our people, with a large number of leadership and management personnel coming with extensive experience from multinational organizations.
- All of this has allowed us to gain and maintain the trust of some international brands like B. Braun (USA), Winner Medical, Purple Surgical, Armstrong Medical, LDL, Sipamed, VitalTech, Viamed and continue to be their exclusive distributors in Saudi Arabia.
- In closing, one statement probably describes us best - we are a multinational company at heart with the agility and cost structure of a local firm.

Jamjoom Medical Industries Co. Ltd.

Factory

JMI has 2 existing factories covering 20,000 m² with the primary site manufacturing plastic based medical consumables and disposables, gauze and dressings and another site making drapes, gowns and medical packs/trays. Given our aggressive growth plans to expand our range of products, in 2012 we acquired an additional 27,000 m² for new expansions over the coming few years. We also operate warehousing space of 15,550 m² located strategically across the Kingdom.

We take the quality of our products and processes seriously and ensure strict implementation through strong quality assurance procedures. JMI holds international certifications in ISO 9001:2008, ISO 13485:2003 including design of medical products, US Federal Standard 209E and CE MARK 93/42/EEC. Our approach towards quality has also been recognized internationally and we have received two prestigious awards:-

- International trophy for "Quality room, Europe."
- "Golden America for Quality" from U.S.A.

Our cleanrooms have been designed and constructed to ISO 14644 standards and are investing to have additional 40% cleanroom capacity by 2014.

Extension Tube Set

Length

JM-X2600-150	150cms
JM-X2600-180	180cms
JM-X2600-200	200cms
JM-X2601-300	300cms

- Extension tubing set with male and female luer lock fitting 150cms, 180cms, 200cms, and 300cms. Extension tube set with male / female luer lock.

Features

- Piercing spike according to ISO standards.
- Flexible drip chamber for a rapid and easy adjustment of fluid level.
- Large fluid filter area.
- Precision-roller clamp with piercing spike covering for safe disposal.

Specifications

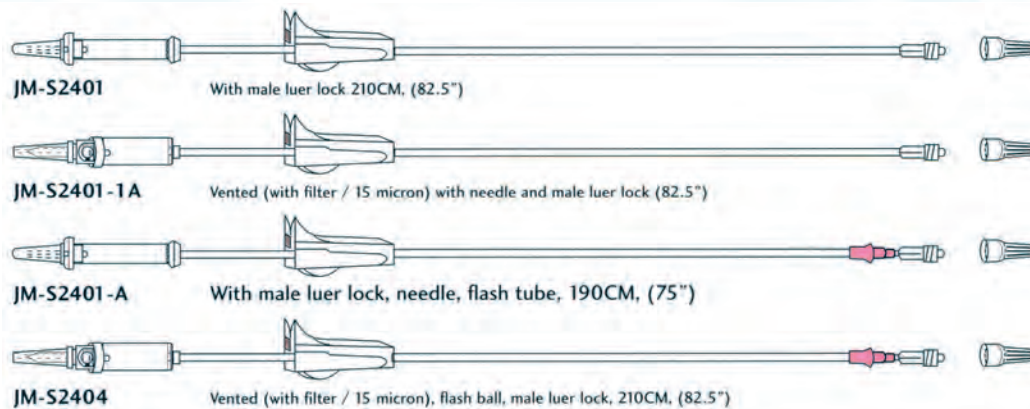

- Vented or non-vented spike With or without latex-free injection port.
- 15 or 60 drops per ml
- Various length of tubing
- Luer lock fitting or with needle holder
- Sterile and Pyrogen free
- With 15 μ m fluid filter
- Sterilization by Ethylene Oxide (ETO).

Packing

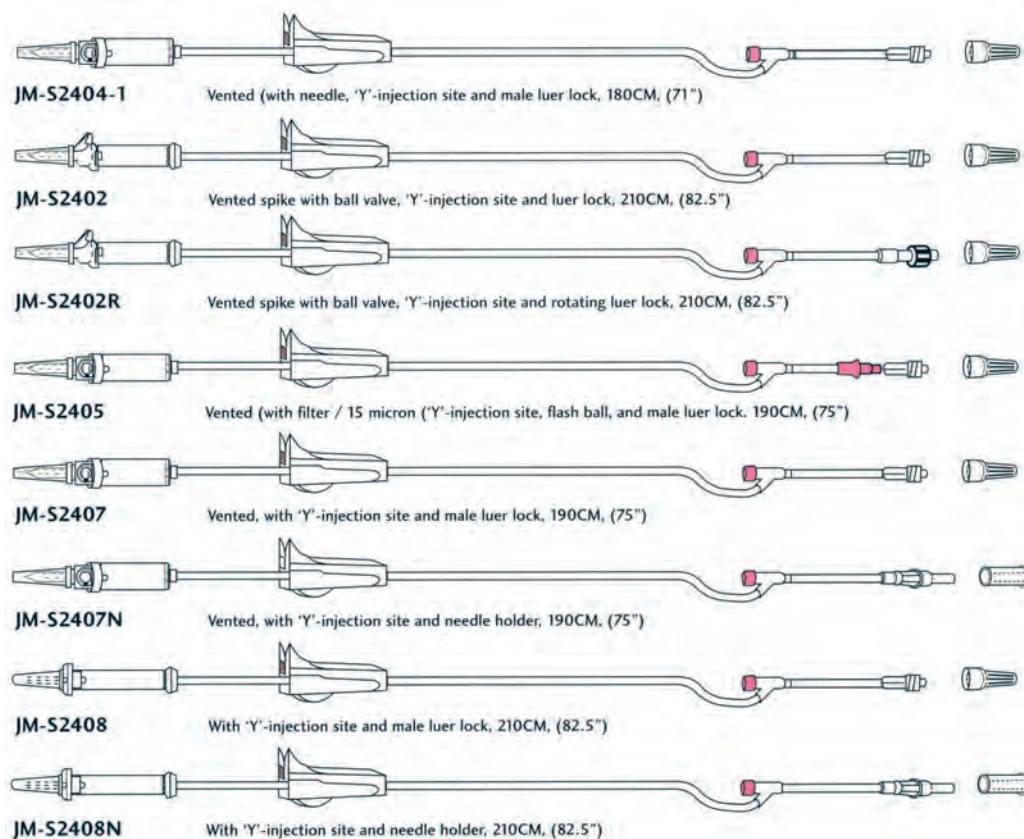

- 50 sterile I.V. sets per box in single-peel package.

I.V. Administration Sets

Burette Sets

Catalog Number

JM-S2411-B60S	IV set with burette, 150ml 60 drops/ml, 20/cs
JM-S2416-B60S	IV set with burette 100ml 60 drops/ml, 20/cs

Features

- Clear, soft, cylindrical and calibrated measured volume chamber with bold graduation.
- Chamber injection port allows medication to be injected into burette chamber for medication mixture.
- Chamber filter allows air to enter chamber through hydrophobic membrane to prevent solution contamination.
- Precision flow regulator for accurate dispensing of solution and precise flow control.
- Automatic shut off valve prevents air trapping in the fluid line once the measured volume chamber is empty and it also indicates the level of liquid.
- Two precision-roller clamps.
- Bacterial proof air filter with snap cap

Specifications

- Soft and kink resistant PVC tubing 100ml / 60 drops / ml & 150ml / 60 drops / ml
- Y injection site.
- Luer lock.
- Automatic shutoff
- Sterilized by ethylene oxide

Packing

- 20 sterile single peel package per box.

Blood Administration Set

Catalog Number

JM-S2422	Set for blood adm. Disp Ster. W/ rubber flashball
JM-S2422-Y	Set for blood adm. Disp Ster. With y injection
JM-S2422-100	Set for blood adm. With 100ml chamber

Features

- Designed for transfusion of blood or blood component
- Moulded latex flush ball injection membrane for intermittent medication
- Clear, transparent and soft tubing manufactured from medical grade PVC
- Flexible lower part of drip chamber for a rapid adjustment of blood level

Specifications

- Length of tubing 150 cm.
- Filter service 22 cm.
- Mesh width 200 um.
- Latex injection site.
- Luer fitting.
- Pyrogen free.
- Sterilized by ethylene oxide.

Packing

- 20 sterile single peel package per box.

JM-S3427-100	Scalp Vein Set 27G, 100/Pk, 10Pk/CS

Features

- The stainless steel needle with ultra thin wall, silicone coating on the outer & ultra sharp bevelled to minimize trauma to the patient.
- Flexible wings for easy gripping & fixation.
- Color coded wings for easy identification of needle size.
- Kink resistant tubing.
- Needle made of chrome - nickel steel.
- Luer lock connector and transparent tubing.

Specifications

- Tubing 30 cm length
- Sterilized by Ethylene Oxide (ETO).

Packing

- Pack of 100 each - case of 10 pack

Stop Cocks

Catalog Number

JM-V5534	3-WAY, 50/Pk, 10Pk/CS

JM-V5534-20	3-WAY with 20cm TUBING
JM-V5534-30	3-WAY with 30cm TUBING
JM-V5534-50	3-WAY with 50cm TUBING
JM-V5534-80	3-WAY with 80cm TUBING
JM-V5534-84	3-WAY W/84 CM TUBING CS/100
JM-V5544	3-WAYS HIGH PRESSURE (UP TO 1200 PSI) TRANS.L.LOCK

Features

- Fully transparent housing ensures observation of flow and presence of air bubbles.
- Allows convenient access for injections and aspirations by rotating adapter.
- Resistance against stress cracking resulting from exposure to infusion solutions, drugs.
- Can be turned by 360° without limitation.
- Low profile provides stable and safe position on the patient.
- For venous and arterial application.
- Prevents leakage, contamination and air embolism.

Specifications

- (PC) Polycarbonate medical grade-base. (POM) Polyoxymethylene medical grade - top.
- Three way stop cock with tubing 10cms, 25cms, 50cms, and 80cms
- Available in 3 way and 4 way.
- Sterilization by Ethylene Oxide (ETO).

Packing

- Packing 100 each per pack, 10 pack per case.

A.V. Fistula Needles

Catalog Number

JM-N4715	Needle for Hemodialysis 15G,250/CS
JM-N4716	Needle For Hemodialysis - 16G, 250/CS
JM-N4717	Needle For Hemodialysis - 17G, 250/CS

Features

- The stainless steel needle with ultra thin wall. Silicone coating on the outer & ultra sharp bevelled to minimize trauma to the patient.
- Surface of Fistula Needles to prevent the adherent of blood components.
- Steel quality provides lubrication for insertion and withdrawal.
- Super smooth kink resistant tube.
- Flexible wings for easy gripping & fixation.
- Color coded wings for easy identification of needle size.
- Sterile / Disposable / Individual Packed / Printed Box Packing.

Specifications

- With and without back eye in rotating wing type.
- Ultra-thin silicone coating needle with transparent luer lock connector.
- Kink-resistant non collapsible 30cms tubing.
- Sterilization by Ethylene Oxide (ETO).

Packing

- 150 each per box.

Blood Lines

Catalog Number

JM-B8410A	Bloodline, Gambro AK 10, Arterial
JM-B8410V	Bloodline, Gambro AK 10, Venous
JM-B842008	Bloodline Fresenius DBL, NDL Arterial/Venous CS/20
JM-B842008-1	Bloodline Fresenius DBL, NDL Arterial/Venous CS/20
JM-B842008-2	Blood Line For Fresenius Machine (2008/4008) Double Needle
JM-B84400	Blood Line For Dimax Nipro, (Arterial & Venous - DBL, NDLE)
JM-B84A	Blood Line For Hospal Integra Machine (Arterial Line)
JM-B84-S	Blood Line For Dialogue Single Pump (Arterial & Venous)

Features

- Jamjoom Medical Industries Bloodlines are manufactured under a stringent quality system.
- Specialized technical service guarantees the functionality of the bloodlines.
- Jamjoom bloodlines, for which specific models are available, are FERSENIUS 2008 single and double needle, BRAUN HD SECURA 400 ML, BRAUN HD SECURA 600 ML and CAMBRO AK10 for adults.
- Jamjoom Bloodlines have an internal smooth and regular wall with a constant diameter throughout the entire line, reducing the possibility of hemolysis.
- The tube is made of medical grade PVC and is non-toxic. It is produced with a greater wall thickness, which not only avoids obstruction by collapse (Anti-Kinking), but reduces blood volume loss from the patient's body during Haemodialysis.
- Connectors are in Luer-Lock with double screw.
- Chamber has an Anti-Foam system.
- Sterilization with ETO.

Specifications

- Arterial Set Only
- Venous set only
- Venous and Arterial Set

JM-C2418-2	CATHETER SUCTION STRAIGHT, CONT. VALVE, ROUND SOFT: FR 18	
JM-C2420-1	CATHETER SUCTION STRAIGHT, CONT. VALVE, ROUND SOFT: FR 20	

Features

- Delicate surface facilitates introduction through endotracheal tube.
- The large opening of the distal tip provides for easy and efficient removal of secretions.
- The lateral eyes are smooth - Soft - rounded and close to the tip which maximizes suction efficiency.
- Length 50 cms.

Specifications

- Color coded funnel for identification of size and increased safety for correct introduction.
- Catheter tube made of (PVC) polyvinyl chloride medical grade.
- With Finger Control Tip(Straight)
- With Vacuum Control Tip(Straight)
- With Funnel(Straight)
- Angled With Control Tip
- Graduated With Control Tip(Straight)
- Sterilization by Ethylene Oxide (ETO).

Packing

- 50 sterile catheters per box in single peel package.

JM-C3490-SGH	NASAL OXYGEN CANULLA - with 150cm TUBING, CS/50

Features

- Perfect for high flow oxygen patients who want to enjoy a quiet and smooth delivery of oxygen
- Manufactured from soft, non-toxic PVC.
- Twin nasal prongs are designed to ensure equal volume of oxygen to both air passages.
- Soft funnel shape universal connector facilitates easy connection to the oxygen sources.
- Straight, non-flared nasal prongs ensure consistent delivery of oxygen.

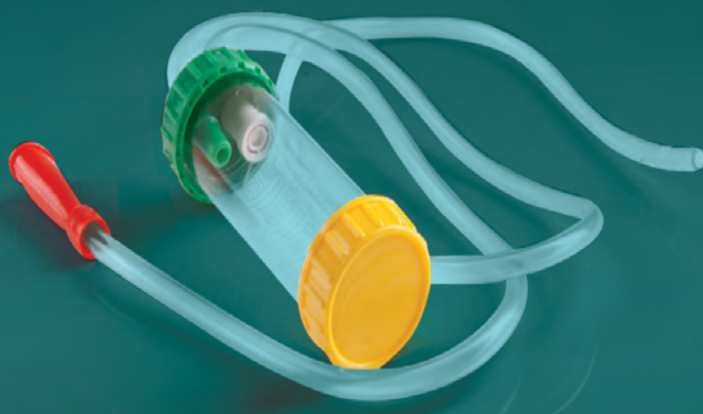

Specifications

- Manufactured from soft, transparent , non-toxic PVC.
- Sterilization by Ethylene Oxide (ETO).

Packing

- 50 pcs. per case.

JM-ETP-107-95	ENDOTRACHEAL TUBE WITH CUFF MURPHY, SIZE 9.5 CS/50

Features

- Thin cuff conforms to uneven tracheal surfaces to create low-pressure seal
- Distal tip reference lines and depth marks assist in proper placement
- Thin, but strong tube wall provides maximum inner diameter for proper ventilation

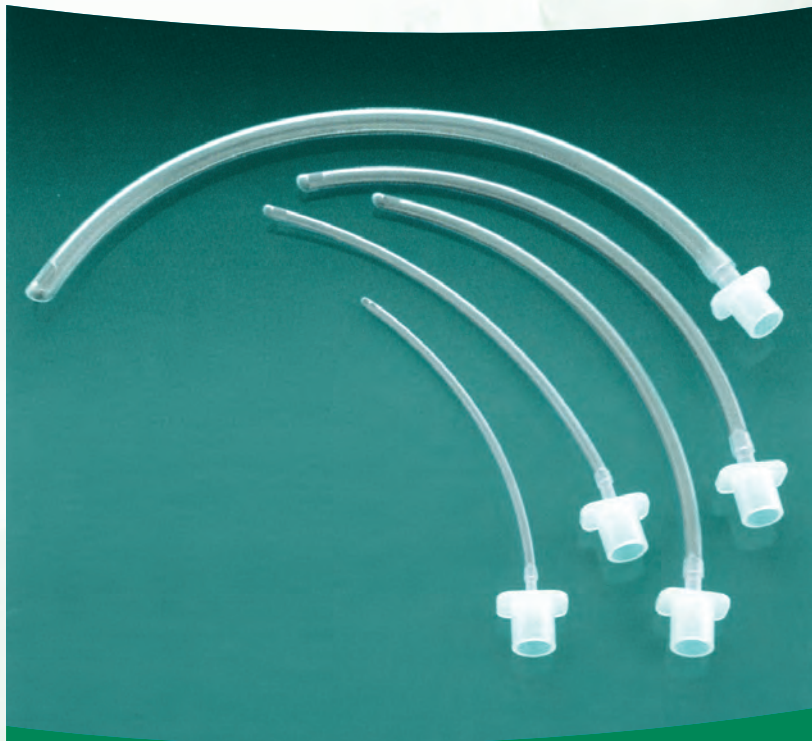

Specifications

- Manufactured from soft, transparent, non-toxic PVC.
- Nasal / Oral use.
- Clear thermo-sensitive material tube.
- Carefully moulded atraumatic tip with murphy eye.
- Tip-to-tip x-ray line.
- Pilot balloon with self-sealing valve.

Packing

- 10 pcs. per carton.

JM-ET-111-25	ENDOTRACHEAL TUBE W/O CUFF, MURPHY SIZE: 2.5, CS/100
JM-ET-111-30	ENDOTRACHEAL TUBE MURPHY, UN-CUFFED SIZE: 3.0mm
JM-ET-111-35	ENDOTRACHEAL TUBE MURPHY, UN-CUFFED SIZE:3.5mm
JM-ET-111-40	ENDOTRACHEAL TUBE UNCUFFED MURPHY SIZE 4 MM CS/50
JM-ET-111-45	ENDOTRACHEAL TUBE MURPHY, UN-CUFFED SIZE: 4.5mm (SO31843C)
JM-ET-111-50	ENDOTRACHEAL TUBE UN-CUFFED MURPHY SIZE: 5mm CS/50
JM-ET-111-55	ENDOTRACHEAL TUBE UNCUFFED MURPHY SIZE 5.5mm 50/CS (SO31846A)
JM-ET-111-60	ENDOTRACHEAL TUBE UN-CUFF, MURPHY SIZE:6.0mm, CS/50 (SO31845)
JM-ET-111-65	ENDOTRACHEAL TUBE UN-CUFFED MURPHY, SIZE:6.5, CS/50
JM-ET-111-70	ENDOTRACHEAL TUBE UN-CUFFED MURPHY, SIZE:7.0, CS/50
JM-ET-111-75	ENDOTRACHEAL TUBE ORAL/NASAL SIZE:7.5mm (SO31849A)
JM-ET-111-80	ENDOTRACHEAL TUBE ORAL/NASAL SIZE:8.0mm
JM-ET-111-85	ENDOTRACHEAL TUBE ORAL/NASAL SIZE:8.5mm
JM-ET-111-90	ENDOTRACHEAL TUBE ORAL/NASAL SIZE:8.5mm

Features

- Murphey eye.
- 15mm Connector.
- TP Markers.
- Sterilization by ETO

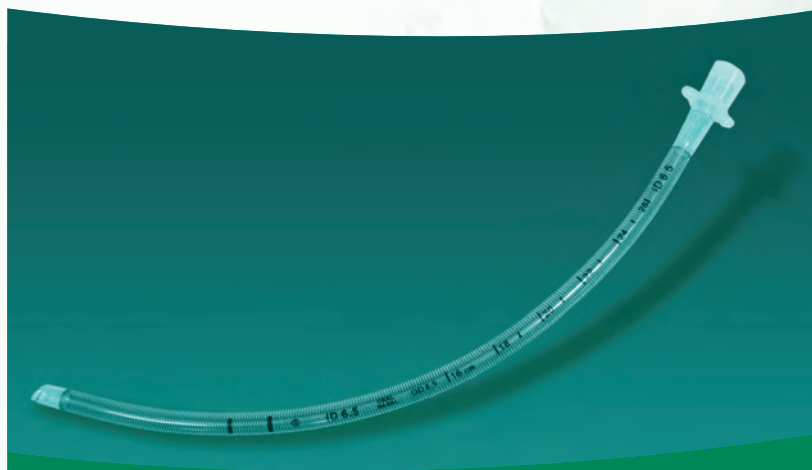

Specifications

- Manufactured from soft, transparent , non-toxic PVC.
- Nasal / Oral use.
- Clear thermo-sensitive material tube.
- Carefully moulded atraumatic tip with murphy eye.
- Tip-to-tip x-ray line.

Packing

- 10 pcs. per Carton.

Endotracheal Tube Reinforced Cuffed / Uncuffed

Catalog Number

JM-ET118-25	ENDOTRACHEAL TUBE REINFORCED, ORAL/NASAL SIZE: 2.5

JM-ETU118-70	ENDOTRACHEAL TUBE, REINFORCED UN-CUFFED SIZE: 7.0

Specifications

- Spiral reinforcement minimises crushing or kinking.
- Nasal / Oral use.
- Clear thermo-sensitive material tube.
- Carefully moulded atraumatic tip with murphy eye.

Packing

- 10 pcs. per Carton.

Catalog Number

JM-ETU118-75	ENDOTRACHEAL TUBE, REINFORCED UN-CUFFED SIZE: 7.5
JM-ETU118-80	ENDOTRACHEAL TUBE, REINFORCED UN-CUFFED SIZE: 8.0
JM-ETU118-85	ENDOTRACHEAL TUBE, REINFORCED UN-CUFFED SIZE: 8.5
JM-ETU118-90	ENDOTRACHEAL TUBE, REINFORCED UN-CUFFED SIZE: 9.0

Closed Suction Catheter

Catalog Number

JM-C2409-6	CLOSED SUCTION SYSTEM PEDIATRIC SIZE: CH 6
JM-C2409-6Y	CLOSED SUCTION CATHETER PEDIATRIC with ET ADAPTOR, 6FR
JM-C2409-8	CLOSED SUCTION SYSTEM PEDIATRIC SIZE: CH 8
JM-C2409-8Y	CLOSED SUCTION CATHETER PEDIATRIC with ET ADAPTOR, 8FR
JM-C2409-10	CLOSED SUCTION SYSTEM TRACHEAL (24HRS) SIZE: CH 10
JM-C2409-10-72T	CLOSED SUCTION CATHETER ADULT TRACHEOSTOMY CON, 10FR (72HRS)
JM-C2409-10Y	CLOSED SUCTION CATHETER PEDIA. with ET ADAPTOR, 10FR
JM-C2409-12	CLOSED SUCTION SYSTEM TRACHEAL (24HRS) SIZE: CH 12 (SO32002)
JM-C2409-12-72E	CLOSED SUCTION CATHETER ADULT with ET CONNECTOR, 12FR (72HRS)
JM-C2409-12-72T	CLOSED SUCTION CATHETER ADULT TRACHEOSTOMY CON, 12FR (72HRS)
JM-C2409-14	CLOSED SUCTION SYSTEM TRACHEAL (24HRS) SIZE: CH 14 (SO32003)
JM-C2409-14-72E	CLOSED SUCTION CATHETER ADULT with ET CONNECTOR, 14FR (72HRS)
JM-C2409-14-72T	CLOSED SUCTION CATHETER ADULT, TRACHEOSTOMY CON, 14FR (72HRS)
JM-C2409-16	CLOSED SUCTION SYSTEM TRACHEAL (24HRS) SIZE: CH 16 (SO32004)
JM-C2409-16-72E	CLOSED SUCTION CATHETER ADULT with ET CONNECTOR, 16FR (72HRS)
JM-C2409-16-72	CLOSED SUCTION CATHETER ADULT TRACHEOSTOMY CON, 16FR (72HRS)

Features

- Used to facilitate continuous mechanical ventilation and oxygenation during the suctioning also indicated when PEEP level above 10cmH₂O
- Patient comfort of suctioning with stopping the air ventilation
- Isolation valve maintain ventilation during suction process
- Medication port for injection of surfactant in highly asthmatic patients
- 100% sealed connection so prevent infection spreading between patient & machine

Specifications

- Manufactured from soft, transparent, non-toxic PVC.
- Suitable for adult and pediatric use with the endotracheal tube or tracheostomy use
- Sterilization by Ethylene Oxide (ETO).

Packing

- 10 pcs. per Carton.

Breathing Exerciser Volumetric

Catalog Number

JM-BR-2A	BREATHING EXERCISER (VOLUMETRIC) 2,500 mL
JM-BRE-2	BREATHING EXERCISER (VOLUMETRIC) FOR PED. (SO31122)
JM-BRE-4	BREATHING EXERCISER (VOLUMETRIC) 4-5 LTR. FOR ADULT (SO31121)

Features

- Helps develop, improve and maintain respiratory fitness.
- Large volume measurement up to 5000mL inspired air.
- It allows to see the progress toward improving the respiratory volume.
- Good - Better - Best: flow-window.
- Advanced, low work-of-breathing filter design.

Specifications

- Come with 5000 ML -2500 ML
- Adult and pediatric.
- Clear graduation.
- Compact design.

Packing

- Packaged 12 per case

Airway Products

Catalog Number

JM-AW-0	AIRWAY, GUEDEL PLASTIC N-STERILE SIZE: 0
JM-AW-00	AIRWAY, GUEDEL PLASTIC N-STERILE SIZE : 00
JM-AW-000	AIRWAY, GUEDEL PLASTIC N-STERILE SIZE : 000
JM-AW-000S	AIRWAY, GUEDEL PLASTIC STERILE SIZE:000

JM-AW-2	AIRWAY, GUEDEL PLASTIC N-STERILE SIZE: 2
JM-AW-2S	AIRWAY, GUEDEL PLASTIC STERILE SIZE:2
JM-AW-3	AIRWAY, GUEDEL PLASTIC N-STERILE SIZE: 3
JM-AW-3S	AIRWAY, GUEDEL PLASTIC STERILE SIZE:3
JM-AW-4	AIRWAY, GUEDEL PLASTIC N-STERILE SIZE: 4
JM-AW-4S	AIRWAY, GUEDEL PLASTIC STERILE SIZE: 4
JM-AW-5	AIRWAY, GUEDEL PLASTIC N-STERILE SIZE:5
JM-AW-5S	AIRWAY, GUEDEL PLASTIC STERILE SIZE: 5
JM-AW-6	AIRWAY, GUEDEL PLASTIC N-STERILE SIZE: 6
JM-AW-6S	AIRWAY, GUEDEL PLASTIC STERILE SIZE: 6

Features

- Provide free air flow whilst protecting the airway from occlusion.
- Integrated bite block prevents the patient from biting down
- Prevents the patient from biting down and occluding airway.
- Smooth bevelled tip allows for easy insertion and minimising the risk of causing patient trauma.

Specifications

- Colour coded
- Guedel airway - laryngeal airway.
- Tracheostomy tube
- Sterilized by EO

Thoracic Drainage Catheters

Catalog Number

JM-TH209-12	THORACIC CATHETER RIGHT ANGLED, LENGTH, SIZE :CH 12
JM-TH209-16	THORACIC CATHETER RIGHT ANGLED, 25-15CM LENGTH, SIZE :CH 16
JM-TH209-20	THORACIC CATHETER RIGHT ANGLED, 25-15CM LENGTH, SIZE :CH 20

JM-TH211-12	TROCAR THORACIC DRAINAGE CATHETER SIZE: 12, (SO31890C)
JM-TH211-16	THORACIC DRAINAGE CATHETER SIZE: 16, CS/50
JM-TH211-20	THORACIC DRAINAGE CATHETER SIZE:20, CS/50
JM-TH211-24	THORACIC DRAINAGE CATHETER SIZE:24, CS/50

Features

- Encased radiopaque stripe.
- Beveled end hole and two side holes 1 cm apart.
- Universal hub adapts to suction drainage systems.
- Provided with stainless steel trocar.
- Graduated at 1cm intervals.
- Distal side hole interrupts radiopaque strips for easy identification on X-ray.

Specifications

- Thoracic catheter / right angled tip-to-tip
- Thoracic catheter / straight tip-to-tip for chest and heart operations.
- Drain trocar catheter
- Sizes 16-32 fr
- Sterilization by Ethylene Oxide (ETO).

Packing

- Packing 100 each per pack, 10 pack per case

Catalog Number

JM-TH211-28	THORACIC DRAINAGE CATHETER SIZE:28, CS/50
JM-TH211-32	THORACIC DRAINAGE CATHETER SIZE: 32, CS/50

JM-Y1002MB	MASK OXYGEN CHILDREN , W/ OXYGEN BAG CS/50
JM-Y1002TM	MASK TRACHEOSTOMY PEDIATRIC
JM-Y1003A	MASK AEROSOL ADULT, 50EA/CS
JM-Y1003MB	MASK OXYGEN ADULT, W/ OXYGEN BAG CS/50
JM-Y1003TM	MASK TRACHEOSTOMY ADULT
JM-Y2002TM	MASK TRACHEOSTOMY, VINYL PEDIATRIC
JM-Y2003TM	MASK TRACHEOSTOMY VINYL FOR ADULT

Features

- Made of clear, medical-grade PVC or Clear, soft, medical-grade silicone..
- Adjustable nasal clip.
- Optional oxygen supply tubing available.
- Seal tight against mouth.

Specifications

- With and without oxygen bag.
- With and without tubing.
- Sterilization by Ethylene Oxide (ETO).

Packing

- Packing 100 each per pack, 10 pack per case

Stomach Tube

Catalog Number

JM-C2561	Stomach Tube Size 10FR CS/100
JM-C2562	Stomach Tube Size 12FR CS/100

Features

- For enteral nutrition and for aspiration of intestinal fluid.
- Sizes of eyes suitable that preventing blockage.
- Graduated with x-ray detectable line and tip ensure position control.
- Color coded funnels for Clean and increased safety introduction of the correct size.
- Tube kink resistant.
- Soft rounded tip and frosted surface facilitates introduction.

Specifications

- medical grade of PVC.
- Length 120 - 125 cm
- Sterilization by Ethylene Oxide (ETO).

Packing

- Packing 100 each per pack, 10 pack per case single sterile peel-packed

Catalog Number

JM-C2564	Stomach Tube Size 14FR CS/100
JM-C2566	Stomach Tube Size 16FR CS/100
JM-C2568	Stomach Tube Size 18FR, CS/100
JM-C2570	Stomach Tube Size 20FR CS/100

Gastroenterologic Tubes

Feeding Tube

Catalog Number

JM-C2555	Feeding Tube - Size 5 FR, 500/CS
JM-C2555-15	Feeding Tube - Size 5FR, 15cm, 500/CS
JM-C2555-36	Feeding Tube 5FR Long 36" (91CM) CS/500
JM-C2555-42	Feeding Tube - Size 5 FR Length 105 CM, 100/CS
JM-C2556	Feeding Tube - Size 6 FR, 500/CS
JM-C2556-15	Feeding Tube Size 6FR, 15" Long, 500/CS
JM-C2556-42	Feeding Tube - Size 6FR, 42" Length
JM-C2558	Feeding Tube - Size 8FR, 500/CS
JM-C2558-15	Feeding Tube Size 8FR, 15" Length, 500/CS
JM-C2558-42	Feeding Tube - Size 8FR, 42" Length
JM-C2560	Feeding Tube - Size 10FR, 500/CS
JM-C2560-15	Feeding Tube Size 10FR, 15" Length, 500/CS
JM-C2560-42	Feeding Tube - Size 10 FR, 42" Length

Features

- For feeding and administration of medicine to infants and premature babies.
- Distal end ensures that food is introduced into stomach.
- Graduated with x-ray detectable line and tip ensure position control.
- Color coded funnels for clean and increased
- Safety introduction of the correct size.
- Tube kink resistant.
- Soft rounded tip and frosted surface facilitates introduction.

Specifications

- Medical grade of PVC.
- Length 50 cm
- Sterilization by Ethylene Oxide (ETO).

Packing

- Packing 100 each per pack, 10 pack per case single sterile peel-packed - box/50 pack

JM-G21013-2	CHEMO GOWN LARGE, BLUE DISPOSABLE
JM-G21014-2	CHEMO GOWN X-LARGE, BLUE DISPOSABLE

Features

- Produced with high quality, non-woven material allowing for maximum breathability and comfort.
- Lightweight with infection barrier and liquid repellency characteristics. Comfortable designs with sweat-free cuffs.
- Double laminated reinforcements in chets and arms, maximising protection to ensure safety.
- Material and design specifications exceed the performance requirements as defined in EN-13795 Standards, whereas production ensures conformity to Medical Devices Directive relevant clauses.
- Double Stitch, Liner Overlock and Ultrasonic models are available upon customer request.
- Sizes can be customised per customer request.

Specifications

- SMS/SMMS/SSMMS or Spunlace nonwovens.
- EO sterilisation applicable
- Sizes S, M, L, XL, XXL

Single Use Surgical Drapes

Catalog Number

JM-170710B	DRAPE UNDER BUTTOCKS, STERILE
JM-DP1218-S	DRAPE TOWEL STERILE, 12x18"
JM-DP1526	DRAPE UTILITY WITH TAPE, STERILE 2EA/PK, 120PK/CS
JM-DP1596	DRAPE UTILITY - 38*65cm

Features

- Surgical Drapes provide a microbiologically clean area around the wound in surgeries. Together with personnel and equipment protection apparels (gowns / covers) they are a part of the infection control system in the surgery room.
- Various nonwoven materials help liquid control, incision cleanliness and barrier functions to ensure maximum clinician and patient safety.
- Drapes are customised and designed for various surgical operations; films, cable holders and drainage system can be integrated.
- Material and design specifications exceed the performance requirements as defined in EN-13795 Standards, whereas production ensures conformity to Medical Devices Directive relevant clauses.
- SMS / SMMS / SSMMS / Spunlace / PE / Bi-layer or Tri-layer materials can be used

Specifications

- EO sterilisation applicable
- High drapeability and lint free properties.
- Easy to apply and dispose of in pre/post-surgical room preparations

- Ultrasound Gel

Electrocardiography

Electrocardiography - Electrode

Catalog Number

JM-MDF400	E.C.G. Electrode Adult 1000/CS
JM-P6	E.C.G. Electrode Pediatric 1080/CS
JM-P7	E.C.G. Electrode For New Born Pre-gelled Disposable

Features

- Extra coating per square inch maximizes adhesion under diaphoretic and stress conditions.
- Adult: Holter Monitoring, Stress Test, ICU / CCU, Operating Room, Recovery Room, Cardiac Rehab, Dental Surgery.
- Comfortable, soft, and conformable electrode.
- Hypoallergenic, non-irritating, and disposable electrode that meets all AAMI performance specs.
- JAMJOOM Electrodes are designed for the difficult adhesion conditions that occur in Holter patient monitoring or anywhere that excess moisture may be a problem.

Specifications

- Coated at 117 grams/meter squared onto a 1/16" thick, white cross-linked, 4lb. per cubic ft. polyethylene foam.
- Center snap with conductive liquid gel column.
- Adult Electrode dimensions: 2.25" x 1.625"
- Pediatric dimensions; 1.75" x .875"
- Disposable, pre-gelled, silver/silver chloride, self-adhering foam.

Packing

- Adult supplied 5 to a release strip, 75 per box, 750 per case.
- Pediatric supplied 3 to a release strip, 108 per box, 108 per case.

Ultrasound Gel

Features

- Water-soluble HYPOALLERGENIC Gel.
- Easily removed with absorbent towel.
- Non irritating.
- No detrimental effect on skin or clothing bactericide.
- Contains no Formaldehyde.

Specifications

- The natural function of the fat and moisture balance of the PH-value of the acidity protective layer of the skin are hardly influenced at all, and both normalize again very quickly after use. In addition, Our Ultrasound Gel is resistant to temperature change.

Packing

- Come in 250 ml bottle and in 5 litre.

Catalog Number

JM-U1001	Ultrasound Gel 250 ML, 24/CS
JM-U1002	Ultra Sound Gel 4 Liters

- Umbilical Cord Clamp

Amniotic Hook

Amniotic Hook

- Surgical device for perforating an amniotic membrane.
- Made of A. B. S. (Acrylonitrile butadiene styrene).
- One Size.

Specifications

- Long shaft for easy handle
- One Size.
- Polished surface avoid damage to body.
- Precise upper edge for smooth perforating sterilization by EO.

Packing

- Single sterile peel-packed.

I.D. Bands / Umbilical Cord Clamp

Catalog Number

JM-B1001-ACHL	Brush For Operation Chlorhexidine, Disposable, Sterile
JM-B1001-APVP	Brush For Operation With Antiseptic, Disposable, Sterile

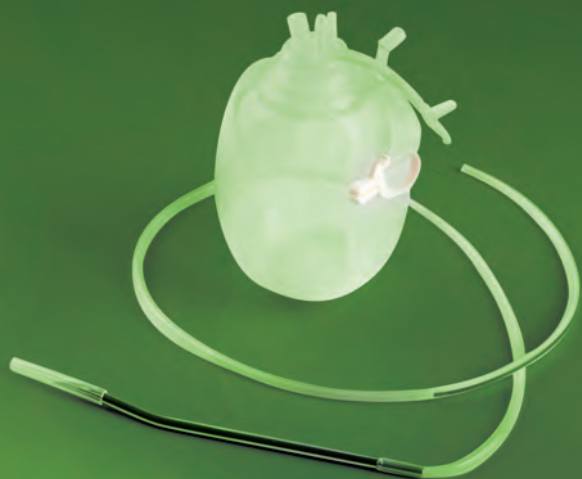

Features

- Nylon brush with high power cleaning bristles .
- Comes with a medium density soft sponge on the upper side.
- The scrub brush has a modern design providing an optimal grip and contributing to an improvement in comfort during the scrubbing process

Specifications

- Each package comes with a nail cleaner
- Come with Povidone iodine-Chlorhexidine

Wound Drainage System

Catalog Number

JM-WD5002-08	Wound Drainage Set With Suction Size: 8
JM-WD5002-10	Wound Drainage Set 400MI Capacity,W/Trocar Size: Fg. 10
JM-WD5002-10S	Wound Drainage Set Plastic W/Trocar Size: Fg 10 (Silicon)
JM-WD5002-12	Wound Drainage Set 400MI Capacity,W/Trocar Size: Fg. 12
JM-WD5002-14	Wound Drainage Set 400MI Capacity,W/Trocar Size: Fg. 14
JM-WD5002-15S	Wound Drainage Set Plastic W/Trocar Size: Fg 15 (Silicon)
JM-WD5002-16	Wound Drainage Set 400MI Capacity,W/Trocar Size: Fg. 16
JM-WD5002-18	Wound Drainage Set 400MI Capacity,W/Trocar Size: Fg. 18
JM-WD5002-19S	Wound Drainage Set Silicon W/Trocar Size: Fg 19, 400-500MI

Features

- The Wound Drainage system is designed for wound sites where a more rapid healing process is necessitated.
- These pancake style evacuators are ideal for joint replacement and other procedures where large volumes of exudates are anticipated.
- The core innovation is a process for providing safe, effective and portable wound drainage through gentle negative pressure that actually removes harmful fluids and bacteria from the anatomy.

Specifications

- Easy to activate.
- Readily compresses with little effort.
- Plug may be pre-positioned for ease of activation and closing.
- Large pouring spout is located close to the edge of the evacuator.
- During emptying, plug holder keeps plug away from flow to help minimize cross-contamination.
- Evacuator can be secured to patient or bedding with the convenient attachment clip.

Yankauer Suction Set

Connecting Tube Specifications:

Catalog Number

JM-S2490	Yankauer Suction Set
JM-S2490-5TDW	Yankauer Suction Set - Double Wrapped, 20/Cs
JM-S2490-A	Yankauer Tip
JM-S2490AV	Yankauer Tip With Control Valve
JM-S2490D	Yankauer Suction Set, Double Wrap

Features

- Used for Removal of blood and secretions.
- Transparent and rigid.
- Acrylonitrile - Butadiene - Styrene (ABS).
- Flexible and kink-resistant.
- Choice of connecting tube according to length and diameter, cut to fit with canisters.

Specifications

- Available individually or with suction set.
- With Round Tip. And With Sump Tip.
- With vacuum control handle and without vacuum control handle.
- PVC (Polyvinyl Chloride).
- Canisters sterilized by Ethylene Oxide (ETO).

JM-S2497-B180F	Suction Connecting Tube 7mm X 180Cm, 20/Cs
JM-S2497-B180FD	Suction Connecting Tube 7mm*180Cm, Dbl. Wrap
JM-S2497-B200	Suction Connecting Tube 7mm x 200Cm, 20/Cs
JM-S2497-B240	Suction Connecting Tube 7mm*240cm, 20EA/CS

Features

- For connecting suction source to suction waste collection systems.
- Used with suction catheters, yankauer suckers, suction probes and other suction devices.
- Have an internal smooth and regular wall with a constant diameter throughout the entire line.
- The tube is made of medical grade PVC and is non-toxic.
- It is produced with a greater wall thickness, which not only avoids obstruction by collapsation (Anti- Kinking)

Specifications

- Come with 5 MM tube with diferrent length and connectors.
- Come with 7 MM tube with diferrent length and connectors.
- PVC (Polyvinyl Chloride).
- Sterilized by Ethylene Oxide (ETO).

JM-C2418N	Catheter Nelaton 18FR, CS/500
JM-C2418NA	Catheter Nelaton Tieman, Angled, Size: FR 18

Features

- Short term bladder catheterization by introduction through the urethra.
- Frosted surface and soft rounded tip facilitates introduction and minimizes need for lubricant.
- Proximal end is fitted with Universal Funnel shaped connector for safe connection to Urine bag.
- Atraumatic, soft, rounded, closed tip with two lateral eyes for efficient drainage

Specifications

- Color coded funnel for increased safety and identification of catheter size.
- PVC Polyvinyl Chloride medical grade.
- Male and female nelaton catheter.

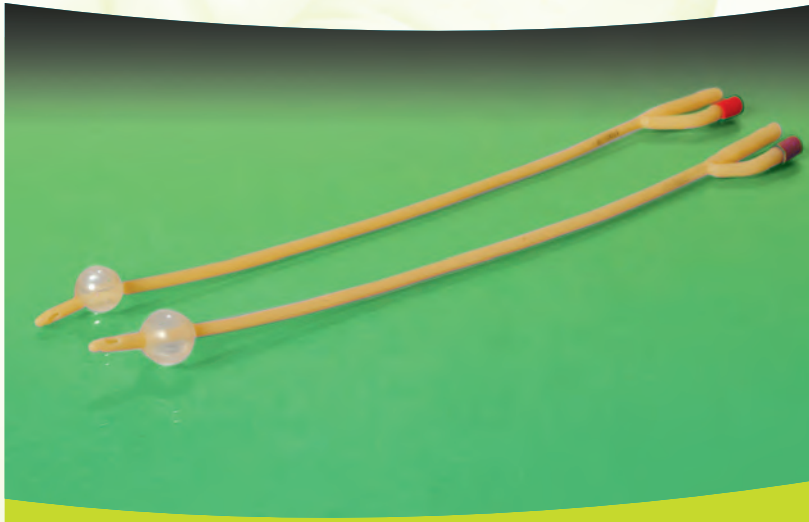

Packing

- Single sterile peel packed. 50 Catheter package per box.

JM-CF3426-5	Catheter Foley 2Way Silicon, FR.26, 5-15mL Balloon
JM-CF3428-30	Catheter Foley 2Way Silicon, FR.28, 15-30mL Balloon

Features

- Made of silicone 100%.
- Length 30-50cm.
- Balloon capacity 5ML - 15ML and 30-50ML.
- With X-Ray line.

Specifications

- Double packed sterile.
- Size FR 6, 8, 10, 12, 14, 16, 18, 20.
- Sterilized by ETO.

Packing

- Single sterile peel packed. 50 Catheter package per box.

Closed Urinary Drainage System

Catalog Number

JM-T4416-18	Closed urinary drainage system consistent of , Size: CH 18
JM-T4416-20	Closed urinary drainage system consistent of Size: CH 20
JM-T4416-14	Closed urinary drainage system consistent of Size: CH 14
JM-T4416-16	Closed urinary drainage system consistent of Size: CH 16
JM-T4416-22	Closed urinary drainage system consistent of Size: CH 22

Features

- Used when it is expected to have this drainage for > 3 days.
- Universal double hook & rope hanger with kink prevention.
- Shape must allow complete & efficient drainage, disposable, sterile.
- With the sampling port and vented drip chamber will reduce the risk of retrograde bacterial infection.

Specifications

- Folley catheter 2-ways pure silicon.
- 30-50Cm long with two lateral eyes.
- Balloon size: 3-5ml with valve suitable to be used with syringe luer lock.
- Cylindrical, size: ch 18 attached to urine drainage bag 2000ml capacity with about one meter long tube.
- Clear & fixed numerical graduation, sample port, sliding T-shape drainage valve, anti-reflux valve.
- Slide Clamp.

Packing

- Single sterile peel packed. 40 Catheter package per box.

Urine Meter - Bag

Catalog Number

JM-U200-P	Urimetric Urinary Bag , Pediatric
JM-UB2000S	Urine Drainage Bag , 2000ml Capacity
JM-UB100	Urine Collector for Pediatric, 100-200ml Capacity
JM-U500-2000	Urine Measurement 500mL Fine Meas. 2000mL

Features

- Used to accurately measure urine output and are typically used in surgical and critically ill patients.
- Specially has anti-reflux drip chamber and needless sampling port.
- String & Hanger for convenient & firm fixing of urine meter to bedstead.

Specifications

- Made from high quality medical grade PVC and PP material

Packing

- Single sterile peel packed. 35 Catheter package per box.

Male Urinals

Catalog Number

JM-U3015

Urinal Male, 1000Cc, CS/50

Features

- Designed to help prevent spills
- Have a sturdy grip for easy handling and can be used in several positions by a limited mobility patient.
- Lightweight, durable and easy to clean.

Specifications

- Graduation marks to measure output.
- Made of high density polyethylene.
- Sterilized by ETO.

Packing

- 50 / CS.

Female Urinals

Catalog Number

JM-U3020

Urinal Female 1000Cc, CS/50

Features

- Designed to help prevent spills
- Have a sturdy grip for easy handling and can be used in several positions by a limited mobility patient.
- Lightweight, durable and easy to clean.
- Female urinale with a Smaller bed pan that is tapered on the front to slide easily under the patient with little effort and more comfort in removal by the easy access handle.

Specifications

- Graduation marks to measure output.
- Made of high density polyethylene.
- Sterilized by ETO.

Packing

- 50 / CS.

Foam Dressing

Catalog Number

JM-DRF1010-SBA

Hydrophilic polyurethane foam dressing with gentle silicon border 10x10 cm

Features

- Soft and highly conformable foam dressing that absorbs exudate and maintains a moist wound environment.
- The silicon adhesive material prevents Mepilex from sticking to the wound bed yet adheres gently to the surrounding skin allowing easy application of secondary fixation.
- It will ensure that the dressing can be changed without damaging the wound or surrounding skin or subjecting the patient to additional pain.
- Absorbs exudate effectively and ensures a low risk of maceration.
- May remain in place for several days depending on the condition of the wound.
- Minimizes the risk of maceration

Specifications

- Made of high quality polyurethane foam with the gentle siliconized adhesive layer

Umbilical Catheter

Catalog Number

JM-C2604

Catheter Umbilical Arterial Size: FG 03-04

JM-C2605A

Catheter Umbilical Arterial Size: FG 05

Features

- Specially designed for ease of insertion, patient safety, and comfort during neonatal vascular access.
- Allow continuous pressure monitoring while administering medications, volume expanders and antibiotics.
- Soft rounded tips to reduce perforation risks during placement.
- Soft rounded end holes to facilitate better fluid clearing.
- Barium sulfate-loaded catheter provides radiopacity.

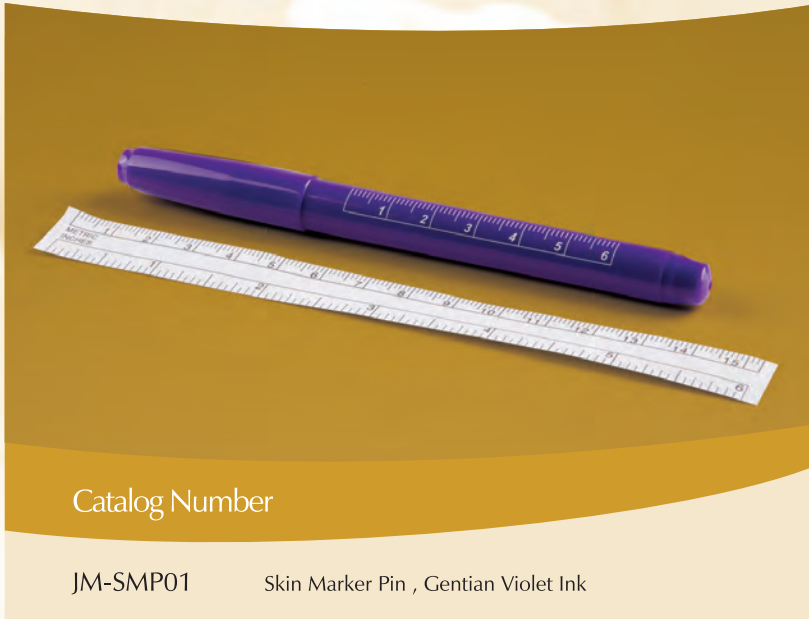

Specifications

- Full graduation from 1 cm to hub for more accurate placement.
- "Zero dead space" Luer locking hub.

Other Products

Skin Marker

Catalog Number

JM-SMP01 Skin Marker Pin , Gentian Violet Ink

Features

- Sterile, single use markers designed to meet the specialized needs of today's surgeons.
- Non-toxic, non-smearing with non-irritating gentian violet ink.
- Fine tip, ruler cap, dual tip, with flexible ruler.
- A large ink reservoir allows for a longer product life and also helps provide constant ink flow for clear marking.

Specifications

- Made of medical-grade, non-irritating gentian violet ink.

Spinal Support Brace

Catalog Number

JM-SSB-XL Spinal Support Brace Size: X-Large

JM-SSB-L Spinal Support Brace Size: Large

Features

- Stabilizing for compression and traumatism fracture of thoracic vertebra.
- Used for kyphosis caused by Scheuermann and osteoporosis of thoracic vertebra.
- Reinforcing Stainless Steel Strips Back.

Specifications

- Made of high quality alluminium-alloy braces,lightly weight.

Other Products

Bag Sterilization

Catalog Number

JM-BSR-30100

Bag Sterilization Roll Size: 30cm x 100 cm

JM-BSB-2040

Bag Sterilization, Size: 20 x 40cm

Features

- Durable / Tear resistant / Lightweight & flexible / Water-resistant & breathable
- Allows quick passage of sterilizing gas and accompanying moisture vapour.
- Heat-sealed upper corners of pouches prevent dust collection at the opening seal.
- Peelable seals facilitate aseptic presentation of packed products.

Specifications

- One paper face and one transparent face ,constructed from a transparent, heat resistant polyamide film.

Plastic Baby Footprints

Catalog Number

JM-FP002

Disposable Plastic Baby Footprints

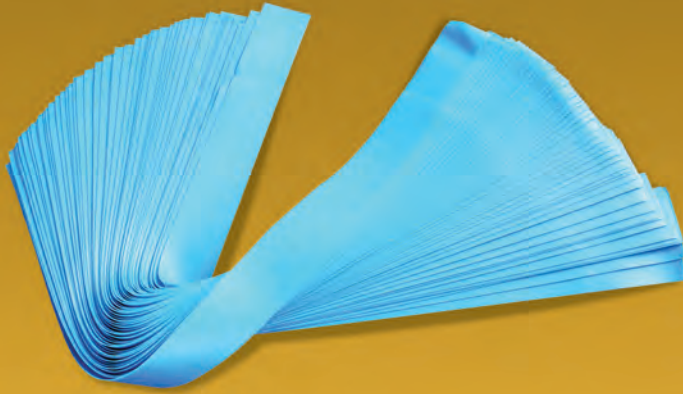

Features

- Create highly legible prints for 2 baby foot prints and mother's thumb print.
- Safe and non-toxic ink is easily removed by washing with soap and water.
- Latex free

Specifications

- Made of high quality medical grade of plastic, and ink.

Disposable Tourniquet

Catalog Number

JM-TNQT02

Disposable tourniquet

Features

- Used to Intravenous infusion and adoption of blood specimen.
- Combines its low profile, roll resistance and contour compliance to deliver uniform tourniquet pressure.
- Reinforced straps provide easy cuff positioning and security.
- Ties provide a final level of alignment and safety.
- Flexible edges for improved comfort.

Specifications

- Eco-friendly latex-free material.
